

English Language & Literature Live online!

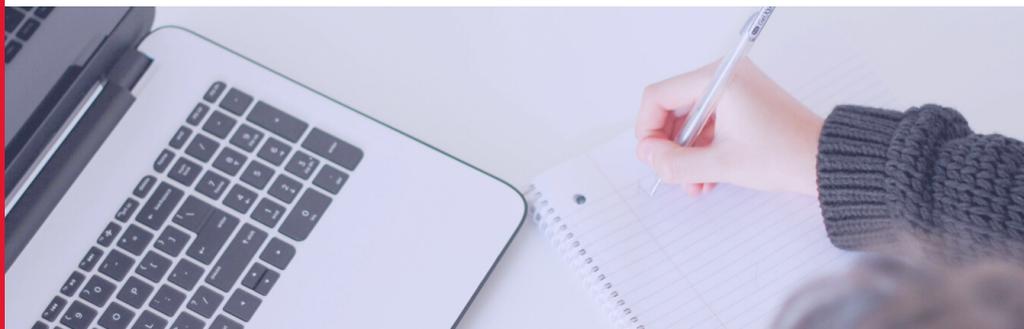

Creative, Effective & Collaborative

École Jeannine Manuel has been leading the way in French-English bilingual education for almost 70 years.

We send more graduates to Oxbridge, Russell Group or Ivy League schools than any other school in France.

We now offer a live online English Language and Literature course for students with a growth mindset who are either native English speakers or highly proficient.

Students in the programme benefit from the same curriculum, methods and academic objectives as for our own students.

Creative

Younger students develop their **reading and comprehension skills** while also progressing in their written English through **creative writing projects**.

Older students discover classic and contemporary literature and develop their **oral and written skills** through **analytical and creative assignments**.

Effective

Focused, regular sessions to sustain **active engagement**.

Quick formative feedback on **short weekly assignments** to consolidate skills.

Report cards, achievement certificates and personalised monitoring to promote a **growth mindset**.

Opportunities for older students to sit **international language examinations**, such as First Language English and Literature Cambridge IGCSEs.

Collaborative

Peer learning and **collaborative projects** to promote student engagement and interaction.

Team building and special activity events.

For whom

CM1 to 2de (Year 5 to Year 11 - 4th to 10th grade)

Teachers

The programme hires qualified teachers, most of whom also teach at École Jeannine Manuel.

Two pedagogical coordinators from École Jeannine Manuel Paris & London have prepared the syllabus and course work.

They mentor the teachers throughout the year in order **to guarantee École Jeannine Manuel standards** in all of the classes.

Online tools

Recent world events have also helped us refine our approach to **innovative and impactful online learning**.

Teachers and students go well beyond the simple use of video calls with quizzes, games, illustration modes, and a great variety of tools that permit an **immersive and fun online learning experience**.

"As an English teacher myself (American), I have been really yearning for H. to learn in a way that is both challenging but engaging, and FINALLY he is a part of a program that does just this. It makes my heart sing."

"I have been promising H. an educational experience that is actually enjoyable (he didn't believe me that it existed up until now), so thank you. Really."

"[the fact] that Mrs R. can elicit a participation out of my child after a full day of classes, is a testament to her skills as an educator and to the quality of the curriculum!"

"Son enthousiasme à participer aux cours est manifeste et nous sommes ravis de le constater toutes les semaines."
