

EJM 2026-2027
SAT PREPARATION PROGRAMS

July 2026

Dear Parents and Students,

The school's SAT Preparation Programs will once more be available for all students wishing to pursue higher education in the U.S. or for those wishing to take the SAT to satisfy testing requirements for European schools, such as Bocconi.

Première students take the official PSAT in October 2026 and prepare for the June 2027 session of the SAT Test.

Seconde students will take the "practice" official PSAT in October 2026.

Given the challenges and importance of the SAT, Seconde students who are certain they will apply to U.S. colleges are urged to enroll in the Seconde SAT Program followed by the SAT Program in their Première year. This will give students two full years to prepare for the test and to optimize their scores. Even in the U.S., where students are very familiar with standardized tests, an overwhelming majority of students applying to highly selective colleges take classes in SAT preparation for 1-2 years, sometimes longer.

That said, students may take just the Première Program. However, this option is prudent **only** for those students whose mother tongue is English and who have the ability to quickly read and comprehend complex texts in English. For questions about your child's particular situation, email a.shapiro@ejm.net.

Grade in 2026-27	Program	Begins	Ends	Target Test Date	Tuition *
<i>Première</i>	SAT Program	November	June	June 2027	2 911€
<i>Seconde</i>	PSAT/SAT Program	November	June	Spring 2028	2 465€
* Additional TVA is applicable to students NOT enrolled at EJM					

Program payments will be paid in the same manner as school tuition payments, according to each family's financial agreement with École Jeannine Manuel's Accounting Department about such payments.

Enrollment in the program is on a first come, first served basis, subject to availability. **All registration and payment will be via the school's Edeka platform.**

Sincerely,
Alex Shapiro
Head of SAT Prep Programs
